

Jason Mefford

Risk Consultant

Jason Mefford joined the Risk Services Division at HUB International in November of 2017. He has over seven years of experience as a safety professional including 6.5 years as a safety manager for a multi-state steel servicing company. He also has experience working with: commercial printing, steel mills, recycling yards, rebar fabrication, heat treating, and coal-fired power plants. In his current role, Jason works closely with clients to provide superior risk management solutions.

Currently, Jason is a member of the American Society of Safety Professionals Western Pennsylvania Chapter

Jason works with organizations on how to confidently identify, quantify and reduce risk through tailored solutions, so that they can protect what matters most: their people, their property, and their profitability.
